## **Local Fugitives** From Rockview Not Re-Captured

Police Officers On Alert In This District And Also Throughout State

REWARD NOTICE IS RECEIVED HERE

McNeil And Rausch May Seek To Evade Return To This Locality

State and city police today said they had found no trace of Leslie McNeil, 37, and Frank Rausch, 26, who escaped from Rockview prison Monday evening. Both were convicted several months ago on charges of house robbery in Lawrence county court. They were members of a gang which robbed homes here and in eastern Ohio of

85,000 worth of goods.

Bloodhounds trailed the fugitives but lost the scent a short distance north of the penitentiary along the railroad tracks. As soon as the escape was known the State police teletype clicked out

the news to police agencies througout the state. State Police, Pennsylvania High-way Motor patrolmen and prison

guards searched the territory near Bellefonte. Rausch and McNell know this territory but it is not believed they will

head this way. Rather, it is suspected, they will where their identity is known.

WASHINGTON, Mar. 28.-Congressional investigation of the charges of Dr. William A. Wirt against "brain trusters" appeared likely today despite the opposition of some Democratic members of the

(International News Service) ST. CROIX, Virgin Islands, Mar. 28.-The colonial council here today rejected the plan of the Roosevelt administration to establish government owned and operated rum and sugar factories in the Virgin Islands. The council refused to grant a char-

ter for the enterprises. A demand for a congressional investigation of conditions in the Islands was cabled by the council to Secretary of the Interior Ickes at

A plan had been proposed whereby the federal government would create and finance a corporation to equip and operate a rum distillery and a sugar refinery. Opposition to the plan was voiced by many residents of the Islands who contended such an enterprise would create a government monopoly and stifle private business.

his vote was overridden by a vote of 310 to 72. It was the greatest upset of the president's administration and one of the greatest rebukes ever given a president by the house. House Resented Attitude.

In the aftermath of discussions, it appeared the house resented the president's action in making concessions to veterans through executive orders while opposing legislative concessions by congress. It was pointed out the president had made six different concessions to veterans since the Economy Act was enacted and then added three more in the very message he wrote vetoing the efforts of congress to eliminate injustice to disabled veterans.

The same spirit prevailed in the

"We have been left out on a limb" said Senator Clark (D) of Missouri. "I voted against the Steiwer-Cutting amendment, when I actually favored it, and for the Byrnes amendment, because I thought the president approved the Byrnes amendment. I took that position to get the disabled veterans some relief. Now that bill has been vetoed. I am going to vote to override the veto."

Senator Russell (D) of Georgia, said: "The trouble is the president makes all the concessions to veterans and asks congress to oppose concessions. I think I'll vote to override the veto."

The same sentiment was expressed by older Democratic senators. Three Democratic veterans told Interna-tional News Service privately they would vote to override the veto. One of this group said: "Don't say I told you, but we'll override the veto. The president is playing a trifle loose with congress when he tries to take all the credit for making concessions to veterans, while blaming the Economy Act on congress."

are confronted with the proposition of cutting down the CWA force about that just like a man?" a thousand members before the beginning of next week, have an exceedingly hard job.

Under the transfer being made by orders of the government from the CWA to the Work Relief Division the force given employment on the CWA projects must be reduced from about 3000 to 1850, in Lawrence County.

Theory of the federal authorities that those let out by the CWA will be absorbed by private industry is faulty, but there is no alternative here for those directing affairs but to reduce the force. It is the further idea of the federal government that those retained

should be those who were on relief rolls with some exceptions of skilled labor, etc. This is another phase of the situation that is rather unbalanced. Many who are employed on the CWA had managed to take care of themselves during the depression but were more worthy of aid than a large number of those who were quick to seek relief from the state

Certain it is that the reduction being ordered in the CWA force is not supported by logic. There is as much reason for continuing the work relief program in most localities, as there was last November. The wholesale dropping of employes is not justified because of any great

#### THE LAW AND THE McCLURE CASE

Public resentment over the legal technicalities which have permitted Senator John J. McClure and fifty-eight others convicted in the Delaware county rum-ring conspiracy to go free is understandable.

It was obvious even to a layman that when repeal came those under trial for violating the Prohibition law would be discharged. But the testimony in the McClure case and the clearness with which the ramifications of vice protection in Delaware county were set forth, says the Philadelphia Inquirer, caused many good citizens to hope that some way would be found to punish the principals.

The case has been remanded to the District Court by the Circuit Court cized and the other co-operative of Appeals, with a direction to vacate "those parts of their judgments units. which sentenced the named defendants and to dismiss the indictments as to them and to discharge them, respectively." That is the law of it. But justice is another matter. Public sentiment demands some other legal methods be sought to punish these defendants.

How to do this is a matter for the Federal authorities who made out such a convincing case in the liquor conspiracy. The understanding is that some of the defendants can be prosecuted for failure to comply with the Income Tax law. That was the method taken to bring A! Capone to justice, amid the applause of the Nation, and if it be possible to follow a similar course with the Delaware county culprits it should be done.

#### TRIBUTE TO OUR SCHOOLS

So often are American schools compared unfavorably with those of Europe, it comes as a refreshing change to see the opposite view taken. When the one making this comparison is the eminent scientist; Professor Einstein more than ordinary interest and importance attach to it. Dr. Einstein thinks American schools have at least one distinct advantage over the schools of Europe. The initiative and independence of pupils are preserved more successfully here, he says, and this, in his opinion, should be one of the chief purposes of schools.

What one must demand from the school in the first place," he explains, "is something negative. It should not suppress in the young a feeling of independence a joy of living, a personal initiative and the urge

"This most important demand the schools of the United States fill in most satisfactory manner, in contrast to the schools of the greater part American schools recently have come in for much criticism. Some of

this no doubt they deserve, but not all of it.

The tribute paid them by Dr. Einstein should serve to direct attention to their better side.

The State of Ohio sets a good example to the rest of the nation andespecially Indiana-in the swift justice administered by her courts to the three Dillinger accomplices involved in last fall's jail break and sheriff murder at Lima, Ohio.

This trio, Harry Pierpont, Charles Makiey and Russell Clark, were found guilty of murdering Sheriff Jesse Sarber, and two of them will die in the electric chair. Clark must serve a life term in prison. All have already been landed at the Ohio State prison at Columbus.

But the brains of the gang, the desperate Dillinger, is still at large; and true justice will not be done until he is given just punishment.

THE OLD MASCULINE SUPERIORITY

A man and a woman sitting on the train. She's working at a cross-word puzzle in a newspaper. He's not doing anything. She works away writing letters in little squares, now puzzled, now relieved—you know how people are when they are working on one of those things. . . . . But finally she's "stuck". There's a long word she doesn't know, can't guess, can't work out through clues from adjacent letters. . . And after an interval she appeals to her husband

Sure, he'll help. He takes the paper, squares his shoulders, settles into the seat, studies the puzzle, knits his brow, thinks, scowls, and finally shows the party of the par inally discovers the right word. He smiles, writes in the word, is proud of himself. But does he give the puzzle back to the lady? Not so you can notice it. It's his now, by right of finding the right word. He keeps it, continues with the puzzle, plugs ahead. But at last he, too, is stumped. He can't think of a ten-letter word for "do-

Steel To Be Battleground? Labor And The NRA Workers Complain Of "Spies"

By LESLIE EICHEL Central Press Staff Writer

NEW YORK, Mar. 28.—The steel dustry will form the battleground the real battleground—in the struggle between large corporations and labor. That's the word in New

The Morgan and the Mellon interests, whose steel and aluminum companies are the most powerful groups opposing unionization, are preparing for the fight. In past years, they have counted on govern-ment on their side. Now they may find government giving the men an equal opportunity.

Wall Street openly discusses that.

MAGNA CHÀRTA?

The NRA has been no magna charta to labor. Labor actually declares that the NRA put it at a dis-advantage. It permitted companies to enter into agreements with com-pany unions, barring organized workers. In many instances it has legalized lockouts, in that manner. The labor bill of Senator Robert

Wagner of New York, bitterly op-posed by large manufacturers, still would not give to labor all that labor believes to be its due. The bill still makes impossible closed shop agreements between employer and union except where a majority of the em-ployes are members of the contractng union.

During the debate in the senate on the treaty, word went around that Andrew Mellon's Aluminum Com-pany of America was the chief opponent, as it used a great deal of water for power purposes and would be deprived of this under the treaty. Now Frank P. Walsh, chairman of the Power Authority of the State of

New York, writes to President Roosevelt: "The Aluminum company is using for its private profit one-fourth of the entire American share of the flow of the (St. Lawrence) river, which would produce electricity worth \$100,000,000 over the period of amortization of the public project." Steel To Be Battleground? Labor And The NRA Workers Complain Of "Spies"

By LESLIE EICHEL Central Press Staff Writer

NEW YORK, Mar. 28 .- The steel industry will form the battleground -the real battleground-in the struggle between large corporations and labor. That's the word in New

The Morgan and the Mellon interests, whose steel and aluminum companies are the most powerful groups opposing unionization, are preparing for the fight. In past years, they have counted on government on their side. Now they may find government giving the men an equal opportunity.

Wall Street openly discusses that

The NRA has been no magna charta to labor. Labor actually declares that the NRA put it at a disadvantage. It permitted companies to enter into agreements with company unions, barring organized workers. In many instances it has legalized lockouts, in that manner.

Certain it is that the reduction being ordered in the CWA force is not supported by logic. There is as much reason for continuing the work relief program in most localities, as there was last November. The wholesale dropping of employes is not justified because of any great change in conditions.

#### THE LAW AND THE McCLURE CASE

Public resentment over the legal technicalities which have permitted Senator John J. McClure and fifty-eight others convicted in the Delaware county rum-ring conspiracy to go free is understandable.

It was obvious even to a layman that when repeal came those under trial for violating the Prohibition law would be discharged. But the testimony in the McClure case and the clearness with which the ramificatimony in the McClure case and the clearness with which the ramification have little or no knowledge tions of vice protection in Delaware county were set forth, says the your ideas are impractical. #### TRIBUTE TO OUR SCHOOLS

So often are American schools compared unfavorably with those of Europe, it comes as a refreshing change to see the opposite view taken. When the one making this comparison is the eminent scientist, Professor Einstein more than ordinary interest and importance attach to it.

Dr. Einstein thinks American schools have at least one distinct advantage over the schools of Europe. The initiative and independence of pupils are preserved more successfully here, he says, and this, in his Long years ago I saw a woman die opinion, should be one of the chief purposes of schools.

"What one must demand from the school in the first place," he explains, "is something negative. It should not suppress in the young a feeling of independence a joy of living, a personal initiative and the urge for knowledge.

"This most important demand the schools of the United States fill in most satisfactory manner, in contrast to the schools of the greater part of Europe."

American schools recently have come in for much criticism. Some of this no doubt they deserve, but not all of it.

The tribute paid them by Dr. Einstein should serve to direct attention

to their better side.

Steel To Be Battleground? Labor And The NRA Workers Complain Of "Spies"

By LESLIE EICHEL

The Morgan and the Mellon interests, whose steel and aluminum companies are the most powerful groups opposing unionization, are preparing for the fight. In past years, they have counted on governnent on their side. Now they may find government giving the men an

equal opportunity.
Wall Street openly discusses that.

MAGNA CHARTA?

The NRA has been no magna charta to labor. Labor actually de-clares that the NRA put it at a disadvantage. It permitted companies to enter into agreements with company unions, barring organized workers. In many instances it has

legalized lockouts, in that manner. The labor bill of Senator Robert Wagner of New York, bitterly op-posed by large manufacturers, still would not give to labor all that labor believes to be its due. The bill still makes impossible closed shop agree-ments between employer and union except where a majority of the em-ployes are members of the contractng union,

Now Frank P. Walsh, chairman of the Power Authority of the State of New York, writes to President Roosevelt:

"The Aluminum company is using for its private profit one-fourth of the entire American share of the flow of the (St. Lawrence) river, which would produce electricity worth \$100,000,060 over the period of amortization of the public project."
The Aluminum company pays nothing either to New York or the United States government for use of the power.

Ministry Of Justice Issues Strict Order Fearing Communists And **Nationalists** 

FRONTIERS ARE BEING WATCHED

By ARNO DOSCH-FLEUROT International News Service Staff Correspondent

PARIS, Mar. 28 .- Alarmed by Communist and Nationalist appeals to arms, the ministry of justice to-day declared war on clandestine arms in an effort to prevent the out-

break of a civil war in France.

Secret service men even adopted a plan of surveillance of the great Creusot arms manufacturing agents.

Let travel and during the month of February, when it was icy, several accidents had occurred.

It is contended that the Creusot arms manufacturing region, centering about Lyons, fearing guns manufactured there might be secretly placed in the hands of either the Communist or reactionary Nationalist organizations.

The frontiers also are being carefully watched. It is suspected par-ticularly that several motorloads of arms have been slipped through the Belgian border in the vicinity of

Liege.
Communists and Nationalists are proceeding with their agitations, threatening to provoke serious trouble at any moment. They are con-centrating in there provinces where a situation is developing similar to that in Italy shortly before the days of Fascism when Communists and Fascists fought bitterly and pre-pared the way for Mussolinism.

## **Answer Is Filed** In Bridge Suit

Claim Of Shenango Motor Co. And Max Ludwig For Damages Disputed

An answer to the bill in equity filed by The Shenango Motor Company and the Max Ludwig Company against Mayor Charles B. Mayne, Chief of Police John F. Haven, city council and the county commissioners was filed at the prothonotary's

office this morning.

The bill was filed following the closing of the West Washington street bridge by order of Mayor Charles B. Mayne. The plaintiffs alleged that the closing of the bridge shut off traffic past their place of business, and resulted in a loss of \$400 a day to the Shanango Motor Company, and \$100 a day to the

Max Ludwig Company.
In the answer filed it is set forth that the bridge is not a part of the state highway system, and that it is under the control of local authorities. It is set forth that the county commissioners had erected an obstruction which was danger bombs and gas bombs was forbidden ous to travel and during the month

## AN UGLY SKIN AND **HOW TO CLEAR IT UP**

Find the Base of Beauty and Build On It

American women are usually considered the most beautiful in the world, but at that one has only to walk the streets of any city to see that many are not making the most of themselves. The droup of the figures that denotes constant fatigue, the eyes that show a weariness always, and the yellowish, clogged skin shows that many women are foregoing their birthright.

going their birthright.

Beauty is always based on health. The greatest foes to it are that congestion we call catarrh and that condition generally known as constipation. Catarrh isn't always evident, to women who suffer from it. They are often inclined to class it as some aliment pseudiar to their sox and suffer in silence. The result is always the accumulation of poisons that undermine the health.

When catarrh is general in the

is always the accumulation of poisons that undermine the health.

When catarrh is general in the system—systemic, we say—it is usually accompanied by constipation, which lets the poisons get into the blood. With inactive liver and overworked kidneys, the skin becomes ologged, loses its freshness of appearance, and all too frequently takes on a yellowish tinge.

Remedies for these conditions are comparatively simple. The first of them is a general clearing out of the system; the second is to allay the catarrhal symptoms, and the third is to build up the bodily strength. In all of these there is nothing any better to help thom than World's Tonic. A course of this remarkable medicine, with the drinking of plenty of good water, a moderate regulation of the diet to avoid too much righ or sweet food, and reasonable exercise, will improve appearance of any woman, give her more energy, make her structure. World's Tonic is sold by Eckerd's, Palsey's, Smith's and all other good druwgists. (A-134)

Ministry Of Justice Issues Strict Order Fearing Communists And Nationalists

FRONTIERS ARE BEING WATCHED

By ARNO DOSCH-FLEUROT International News Service Staff Correspondent

PARIS, Mar. 28 .- Alarmed by Communist and Nationalist appeals to arms, the ministry of justice today declared war on clandestine arms in an effort to prevent the outbreak of a civil war in France. The sale of guns of all character, bombs and gas bombs was forbidden

by government edict. Secret service men even adopted a plan of surveillance of the great Creusot arms manufacturing region, centering about Lyons, fearing guns manufactured there might be secretly placed in the hands of either the Communist or reactionary Nation-

alist organizations. The frontiers also are being carefully watched. It is suspected particularly that several motorloads of arms have been slipped through the Belgian border in the vicinity of

Communists and Nationalists are proceeding with their agitations, threatening to provoke serious trouble at any moment. They are concentrating in there provinces where a situation is developing similar to that in Italy shortly before the days of Fascism when Communists and Fascists fought bitterly and pres pared the way for Mussolinism.

## Answer Is Filed In Bridge Suit

Claim Of Shenango Motor Co. And Max Ludwig For Damages Disputed

An answer to the bill in equity filed by The Shenango Motor Com-pany and the Max Ludwig Company against Mayor Charles B. Mayne, Chief of Police John F. Haven, city council and the county commissioners was filed at the prothonotary's office this morning.

The bill was filed following the closing of the West Washington street bridge by order of Mayor Charles B. Mayne. The plaintiffs alleged that the closing of the bridge shut off traffic past their place of business, and resulted in a loss of \$400 a day to the Shenango Motor Company, and \$100 a day to the Max Ludwig Company.

In the answer filed it is set forth that the bridge is not a part of the state highway system, and that it is under the control of local authorities. It is set forth that the county commissioners had erected an obstruction which was dangerous to travel and during the month of February, when it was icy, several accidents had occurred.

It is contended that the mayor acted to protect the public in closing the bridge and posting notices of a detour. Finally it is contended that the business of the Shenango Motor Company and the Max Ludwig Company during the previous year did not justify the claims for \$400 and \$100 per day damages while the bridge was closed.

Time for hearing the case has not yet been fixed by the court.

William Jacob Metzger, 18, Medical Student Sent Threat Notes To Mother

DEMANDED \$5,000 IN KIDNAP PLANS

(International News Service) PHILADELPHIA, Mar. 28.-William Jacob Metzger, an 18-year-old medical student who sent his mother extoration notes demanding \$5,000 'or your kid will be kidnaped," today faced a hearing before United State Commissioner William

The youth, a student at Western Reserve University, Cleveland, was arrested yesterday when he arrived at the home of his mother and stepfather in Bywood, a suburb, for the Easter holidays. Under questioning of federal agents, Metzger confessed he wrote the letters as a means of "getting out of Gettysburg College," which he attended until last month.

The kidnap threats reached a climax on February 20, when Metzger mailed a postcard in Philadelphia: "We want \$5000 or your kid will be kidnaped. No publicity. Understand? Details later." The note was

signed "Joe."

The plight of her son, on top of her fright and shock at getting the letters, has made the boy's mother, Mrs. Gustave Bien, ill.

Beauty is always based on health. The greatest foes to it are that congestion we call catarrh and that condition generally known as constipation. Catarrh isn't always evident to women who suffer from it. They are often inclined to class it as some ailment peculiar to their sex and suffer in silence. The result is always the accumulation of poisons that undermine the health. When catarrh is general in the When catarrh is general in the system—systemic, we say—it is usually accompanied by constipation, which lets the poisons get into the blood. ## Reorganization Of NRA Is Under Way In Capital

General Johnson Makes Several Changes In Personnel Of NRA Offices

(International News Service)
WASHINGTON, Mar. 28.—Reormization of the national recovery dministration was under way today as Administrator Hugh S. Johnson moved to change the chief activities to one of code enforcement instead of code making. There are now 375

approved codes.
Under the new setup the compliance board under W. H. Davis is relegated to comparative obscurity and superceded by a board of liti-gation in the legal division.

Johnson also plans an inner coun-cil of special assistants whose mem-bership will include his personal sec-retary, Miss Frances Robinson, and his sen Lt. Wilbourns, Johnson

his son, Lt. Kilbourne Johnson. Work Is Shifted. Much of the work now falling upon he shoulders of Johnson will fall to W. Averell Harriman who is to supervise all of the activities of the NRA subject to the approval of the

The new plan contemplates a policy board to administer the codes and will include labor, trade associations and code authorities. It will be the duty of the trade association group to bring all industries under codes.

Duties formerly under the direc-

tion of assistant administrator Arthur D. Whiteside, will be divided. Thomas L. Robinson will be in charge of codes dealing with finance, while G. ## AN UGLY SKIN AND **HOW TO CLEAR IT UP**

Find the Base of Beauty and Build On It

American women are usually conidered the most beautiful in the walk the streets of any city to see! that many are not making the most of themselves. The droop of the figures that denotes constant fatigue, the eyes that show a weariness always, and the yellowish, clogged skin shows that many women are fore-going their birthright.

going their birthright.

Beauty is always based on health. The greatest foes to it are that congestion we call catarrh and that condition generally known as constipation. Catarrh isn't always evident to women who suffer from it. They are often inclined to class it as some aliment peculiar to their sex and suffer in silence. The result is always the accumulation of poisons that undermine the health.

When catarth is general in the sons that undermine the health. When catarrh is general in the system—systemic, we say—it is usually secompanied by constipation, which lets the poisons get into the blood. With meetice liver and overworked kidneys, the skin becomes clogged, loses its freshness of appearance, and all too frequently takes on a yellowish tinge.

Remedies for these conditions are

pearines, and an on frequency takes on a yellowish tinge.

Ramedies for these conditions are comparatively simple. The tirst of them is a general electing out of the system; the second is to allow the exterplat symptoms, and the third is to build up the bodily strength. In all of these there is nothing any better to help them than World's Tonic, A codies of this remarkable medicine, with the drinking of planty of good water, a moderate regulation of the diet to avoid too much rish or sweet feed, and reasonable exercise, will improve appearance of any woman, give her more energy, make her feel better in overy way, and restore that magnetism that will make her attractive. World's Tonic is sold by Eckerd's, Paisley's, Smith's and all other good druggists.

## **New Financing** Plans For PWA Being Advanced

Hope To Provide Funds For Upwards Of \$1,500,000,-000 Of New Projects

**NEW PLAN WILL** MEET APPROVAL

(International News Service) WASHINGTON, Mar. 28.—Plan which the public works administration hopes to provide for up-wards of \$1,500,000,000 of new projects, now delayed for lack of funds, were being prepared today. The proposal calls for the RFC to

advance money against municipal securities, where a project requires both a loan and a grant, from federal funds. The PWA now negotiates both, accepting municipal and state obligations as security.

The new arrangement, if adopted, would require the PWA to advance only the money necessary for out-right grants, usually 30 percent of the total cost of labor and material involved in a project. The remain-ing 70 percent would be negotiated through the RFC, thus enabling the public work to treble the use of its available funds, according to Secretary of Interior Ickes. The sugges-

## **Work Progresses** On Addition At Grasselli Plant

Due to the unusual weather of the past month, the improvements at the plant of the Grasselli Chemical Company have not progressed quite as fast as it was anticipated, but will probably be completed by the end of April, according to Hen-ry Rappoid, manager.

The improvements include a Cot-

trell precipitator, a Glover tower for the reduction of acid gases, and dust collector for the prevention of sulphur dust escaping into the air. Structural steel workers, brick-layers and laborers have been at work for the past 60 days when the weather permitted, and when the improvement is completed the local plant will have the most modern equipment possible for the reduction of ore into sulphuric acid.

The Glover tower is an interesting structure to the layman, the out-side of it being sheeted with lead. Thousands of pounds of sheet lead have been used in the erection, while the interior is lined with brick. Work has been provided for about 40 bricklayers in the operation in addition to the structural steel

Opposing the appeal, W. Walter Braham, appellee counsel, argued that the question of a sleeping guest's contributory negligence has always been treated in Pennsylvania courts as a jury question. The facts warranted submitting the question to the jury, he said. # **New Financing** Plans For PWA

Hope To Provide Funds For Upwards Of \$1,500,000,-000 Of New Projects

**NEW PLAN WILL** MEET APPROVAL

(International News Service) WASHINGTON, Mar. 28.—Plans by which the public works administration hopes to provide for up-wards of \$1,500,000,000 of new pro-Signalling games were played and jects, now delayed for lack of funds,

were being prepared today.

The proposal calls for the RFC to advance money against municipal securities, where a project requires both a loan and a grant, from federal funds. The PWA now negotiates both, accepting municipal and state obligations as security.

The new arrangement, if adopted, would require the PWA to advance only the money necessary for out-right grants, usually 30 percent of the total cost of labor and material involved in a project. The remaining 70 percent would be negotiated through the RFC, thus enabling the public work to treble the use of its available funds, according to Secretary of Interior Ickes. The suggestion was made first at White House conference attended by Ickes, Jesse H. Jones, head of the RFC and

Hope To Provide Funds For Upwards Of \$1,500,000,-000 Of New Projects

NEW PLAN WILL

MEET APPROVAL

(International News Service) WASHINGTON, Mar. 28,-Plans by which the public works admin-istration hopes to provide for up-wards of \$1,500,000,000 of new projects, now delayed for lack of funds, were being prepared today.

The proposal calls for the RFC to advance money against municipal securities, where a project required both a loan and a grant, from federal funds. The PWA now negotiates both, accepting municipal and

state obligations as security.

The new arrangement, if adopted, would require the PWA to advance only the money necessary for outright grants, usually 30 percent of pathy extended us at the bereavement of our wife and mother, also for beautiful floral tributes and cars donated.

Public Service Commission Gets Report Of Fatal Pittsburgh Wreck

ENGINE CREW IN

(International News Service) HARRISBURG, Mar. 28.—The wreck of a Pennsylvania Rail. road passenger train near the Federal Street station in Pittsburgh last February 26 in which 11 persons were killed and 46 injured was blamed today on excessive speed in a report to the Public Service Commission by John P. Dohoney, its investi-gator of accidents.

His report read:
"The derailment of passenger train 1638, was due to the train being operated on a sharp curve at excessive speed in violation of operating rules and restrictive signals."
Testimony taken at the coroner's inquest in Pittsburgh tended to show the engineer was dead or incapacitated just before the wreck occur-

Couldn't Place Blame Dohoney's report did not place blame for the wreck directly on any members of the crew but merely noted that since both the engineer and firemen were killed no informa-tion could be developed as to why the brakes were not properly applied.

The report recommended that the

Fugitive Chicago Banker Reported Enroute To Rumania

(International News Service) ISTANBUL, Mar. 28.—The little Greek freighter Majotis, carrying Samuel Insull in flight from the arm of American law, was reported to have passed through the Dardznelles today, heading northward toward the Black Sea.

The fugitive Chicago financier was reported heading for a Rumanian north

ian port.
The exact destination of the Maiotis was unknown, but it was stated authoritatively that the freighter would arrive at Istanbul, at the entrance to the Black Sea, at day

break tomorrow.

At that time the freighter, chartered by Insull at great cost, would stop for further provisions.

Athens, Mar. 28.—The British legation today formally notified Mrs. Samuel Insuli that her application Hamuel Insult that her application for a British visa had been refused. Attorneys for the wife of the indicted Chicago utilities magnate charged that the American government had brought pressure to bear upon the British government to refuse the visa.

President Signs Bill Providing For Naval Construction

(International News Service) WASHINGTON, Mar. 28.-Presi They issued a personal invitation to New Castle residents to call at son bill, authorizing construction of a "treaty strength" navy. He issued a coincident statement, however, declaring the administration policy continues to favor limitation of naal armaments.

The president expressed the hope that the naval conference to be held in 1935 would extend existing limi-tations and bring even further reduction of naval armament.

The president's statement care-

fully pointed out that the Vinson bill does not appropriate for construction of a single additional warship. He explained that the measure simply authorized a program of 102 warships and 1,184 airplanes by 1939.

1939.

The presidential statement described the bill as simply a state-ment by congress that it approved building up of the navy to the strength prescribed in the London and Washington treatles and not beyond this point.

PESACH OR THE FEAST OF PASSOVER

Laying New Tracks Beginning this year on Friday, March 30, and lasting for one week, Pesach, the annual Feast of Pass-over or of Unleavened Bread, will Five Miles Of Rail Replaced In be celebrated in Jewish homes and synagogues. This, the oldest feast of the Jewish calendar, carries us back well nigh 3300 years. The awakening of spring has its normal awakening of spring has its normal appeal and its practical symbolism to every people. The agricultural aspect of this holiday is seen in the Replacement of five miles of track in five days was the record phrase "that it is to be kept in the season of the month of ripenings," established by Pennsylvania railroad men when they recently dug up old tracks on the Erie and Pittsburgh branch, between Sharpsville and when the barley sown in winter has become ripe and when an offering consisting of an omer (one-half gal-Clarksboro, and replaced them with lon) of barley was brought in grati-tude to the Giver of all good. said the work was done with modern air-driven machines by 65 men, making the up-valley stretch of road up to date in every particular.

The historical significance of the festival has over-shadowed its agricultural aspect. As the Feast of Freedom, it commemorates the emancipation of Israel from Egyptian bondage and its entrance into the dignity and destiny of national life. It thus marks the birth of the Hebrew people and the first commonwealth. An entire people walked forth as free citizens without a drop of blood having been spilt or a sword unsheathed.

The main characteristic of the Passover celebration has always been domestic. In the homes the families and the invited friends gather on the first and second evenings to recount in song and story amid appropriate symbolism the deliverance of Israel. The main symbols of this Seder service are the roasted lamb bone remining them of the lamb brought as a sacrifice in ancient times; second, the Mat-EAST BROOK CHURCH on during the whole week, recalling In observance of Holy Week, East which the Israelites hurried out of Brook Methodist church will have Egypt, but also their absolute relispecial services Good Friday evening ance upon God and readiness to trust in His leadership; and the bit-ter herbs, suggesting vividly the bit-ter life of their forefathers in Egypt. #### PESACH OR THE FEAST OF PASSOVER

Beginning this year on Friday, March 30, and lasting for one week, Pesach, the annual Feast of Passover or of Unleavened Bread, will Five Miles Of Rail Replaced In be celebrated in Jewish homes and synagogues. This, the oldest feast of the Jewish calendar, carries us back well nigh 3300 years. The awakening of spring has its normal appeal and its practical symbolism to every people. The agricultural aspect of this holiday is seen in the phrase "that it is to be kept in the season of the month of ripenings," when the barley sown in winter has become ripe and when an offering consisting of an omer (one-half gallon) of barley was brought in grati-

of cultural aspect. As the Feast of road up to date in every particular. Freedom, it commemorates the emancipation of Israel from Egyptian bondage and its entrance into the dignity and destiny of national life. their poignant application. The other symbols of the table decorations ought to be noted; namely, the four cups of wine allowed to each one are reminders of the fourfold phrase in which God couched the first "Declaration of Independence", and the cup of wine meant for the prophet Elijah who, always present in spirit, brought ever anew the message of undying hope of the Messianic reign of universal justice, freedom and peace.

The Feast of the Passover has not lost its thrilling significance to the modern Jew. To those still enslaved in intolerant lands, it sings of ultimate redemption, while to those living under the blessed flag of freedom it teaches the ceaseless lesson of gratitude together with an appreciation of the higher civic duties and responsibilities of constitutional liberty.

Pittsburgh South Will Meet Reading High For State Title Saturday

(International News Service)
PITTSBURGH, Mar. 28.—Scoring 2 39 to 26 victory over the strong New Kensington high school basketball team, South high of Pittsburgh today ruled western Pennsylvania's scholastic basketball circles.

By virtue of their victory, South high tossers will clash here Satur-day against Reading, eastern re-gional champions, for the state court title.

New Kensington opened the game with a spurt that put it into a 4 to 0 lead. This advantage soon was lost as South forged into the lead and on to victory.

SOMEONE asked Frank A. Dewberry what the A in his name stands for. Well that's for Alexander. Frank was named after his dear old grandpop. Alexander McCullough Sickafuse of the dear old west side, as fine a man as ever walked in shoe leather. The happiest times of Frank's life were spent as a pal to his grandpop who never voted anything but the Democratic ticket and who would be a proud man if he were living today and following in the footsteps of our great President, Franklin Roosevelt.

SOMEONE asked Frank A. Dewberry what the A in his name stands for. Well that's for Alexander. Frank was named after his dear old grandpop, Alexander McCullough Sickafuse of the dear old west side, as fine a man as ever walked in shoe leather. The happiest times of Frank's life were spent as a pul to his grandpop who never voted anything but the Democratic ticket and who would be a proud man if he were living today and following in the footsteps of our great President, Franklin Roosevelt.

Congress is getting so stirred up about it that an investigation has been asked at which Dr. Wirt will be given an opportunity to name the "brain trusters" whom he accuses of sabotaging the recovery move-ment and the fundamental principles of the American system of gov-

#### Be Angry Or Smile?

Those close to the president don't know whether to be angry or merely amused over the tempest that has been stirred up.
"What is the "brain trust," so-

The phrase originated on the Roosevelt campaign train in 1932. It was coined by the newspaper correspondents who were travelling with Mr. Roosevelt, and was jocu-larly applied to the little group of campaign advisers who counselled

with the candidate on matters of policy and speeches.

This group varied from time to time, but Prof. Raymond Moley was at Mr. Roosevelt's side throughout the campaign, and gradually he be came known as the No. 1 "brain truster." Moley always rather resented the term, but he accepted it good-naturedly, and usually smiled when he heard it.
